- In 1933 they were expelled from Germany and with genocide committed against them (this is what they are doing in Palestine now).
- 1933 - Present: They occupied Palestine with the help of Britain and continue to commit the most heinous massacres and genocide against the Palestinians. I mean, instead of taking revenge on those who expelled them from their homes in Europe, they take revenge on the Palestinian Arabs, the original owners of the land, under the pretext that it is the Promised Land for the Jews, even though these are not the original Jews, as these have nothing to do with Palestine or the whole region, they are Zionist Jews who belong to an international terrorist organization that they exploit to achieve their interests and the Western and European governments, led by America now and the rest of the European Union countries, with a difference between them in the extent of their support for Israel, this cancerous entity in the region.

I say cancerous, because with the arrival of the first Jewish immigrants to the land of Palestine, they were poor exhausted and fleeing from killing and destruction, so the Palestinian Arabs who are known for generosity and support for the oppressed received them, and helped them and allowed them to work with them on their farms or in the port of Haifa, Jaffa and the rest of Palestine, but with the passage of time the Jewish criminal immigrants coming to Palestine strengthened with the help and unlimited support of Britain, the country that was colonizing Palestine, Jordan, the Levant and Iraq at the time, and they seized the land and killed its people and displaced them They continue to kill women, children and the elderly in Gaza and the rest of the occupied Palestinian territory.

These Zionist Jews are more dangerous to humanity than the deadliest diseases and even the nuclear bomb, which they will use one day, even against the countries and peoples that support them in occupying the countries of others, supporting them with weapons and money and providing them with all kinds of support.

The world will not live in peace until the earth swallows them all. Wherever they go, they bring bloodshed, genocide and destruction.
